## SUMMARY

Analytical and detail-oriented Mathematics student with a strong foundation in statistical modeling, data interpretation, and problem-solving. Skilled in Python (Pandas, NumPy), and Excel for data cleaning, analysis, and visualization. Passionate about leveraging quantitative methods to drive business decisions—particularly in FMCG supply chain optimization, sales forecasting, and consumer insights. Completed coursework in probability, linear algebra, and regression analysis. Seeking to apply my technical and analytical skills as a Data Analyst to contribute to data-driven strategies and providing valuable insights while enhancing organizational efficiency and my industry knowledge.
